

Ana Karina Suárez González

FRONTEND DEVELOPER · UX/UI DESIGNER · AI ENGINEER

I build digital products that move real business numbers, and I now design and orchestrate **AI agents with Claude Code** to ship them faster, cleaner, and at scale.

ORCHESTRATE, NOT JUST PROMPT

Design & orchestrate AI agents with Claude Code, from idea to reviewed UI.

DESIGNER WHO CODES

UX/UI + frontend in one profile: I design it and I ship it in React/Next.js.

BUILT FOR BUSINESS IMPACT

AI for speed, human judgment for quality, real metrics on revenue & cost.

PROFILE

Frontend Developer and UX/UI Designer who builds applications that deliver tangible business results, not just interfaces. At **Evolution Pos** I helped clients grow restaurant revenue by up to **22,2%** year over year and cut costs by **14,3%** without increasing headcount. Today I work hands-on with **Claude Code**, designing and orchestrating **AI agents** that automate development workflows so teams ship faster and at higher quality.

EXPERIENCE

Frontend Developer & UX/UI Designer

Evolution Pos · Remote

09/2022 – Present

3 yrs 9 mos

Designed intuitive, responsive interfaces enabling customers to **order and pay directly from their tables**, reducing wait times by 40% and improving satisfaction.

Architected a reusable **design system** with brand tokens (color, logo, typography) that turns each restaurant's identity into a ready-to-launch, fully **branded page in minutes**, replacing manual per-client builds with a fast, consistent, and scalable workflow.

Design and orchestrate **AI agents with Claude Code** that automate coding, testing, refactoring, and code review, turning repetitive engineering tasks into reliable automated pipelines.

Build **custom agent workflows and prompt systems** that take a feature from idea to working, reviewed UI in a fraction of the usual time, while keeping a human in the loop for quality.

Developed core application features ensuring smooth navigation, high performance, and 31,2% improved scalability.

Implemented unit and end-to-end **testing strategies**, minimizing production bugs by 40%.

Helped increase restaurant sales by **23,1% in revenue** versus the previous year, while reducing the need to hire additional staff by 12,2%.
